

Dear WIFA Student Anglers,

To track your Master Angler catches this year, we will use the FishDonkey App. You will be responsible for photo documenting your own qualifying fish through the app. This will enable us to view all catches regardless of what school/team you are enrolled in. Your coaches will not enter these fish for you. You will need to download the app yourself (it's free) and record your own fish. You will be able to view the qualifying measurement for each species in the app.

Below are instructions on how to join and also how to practice using the app so you are prepared when you catch a masterpiece!

**Here's how to join:**

1. Download the FishDonkey app.
2. Join 'WIFA Master Angler (Private)'

**Watch a 1 minute tutorial on How to Enter a Fish**

**You can test the app before you get out on the water.**

1. Download the app
2. Join 'Practice Entering a Fish'

**Required documentation through the app per fish:**

- Photo of the fish on the measure board
- Photo of you holding the fish
- Video release of the fish going back into the water (used to break ties for Master Angler of the Year)

**After you register for the app, go into your PROFILE. Add the acronym for your school after your last name.**

For example:

Ted Bonde **KHS**

If you need help with the app, you can reach out to FishDonkey for tech support. They'll be ready to help.
